THE KILOAU is expected to return from her trip around Hawaii on Sunday morning. She will leave Honolulu next for Kona, and the week following will make a trip to Maui.

The Honolulu Ice Manufacturer has been compelled to suspend operations in consequence of the supply of ammonia, which was expected by the last steamer, not having arrived.

ACTION SALE.—Barlow steamer, to-day, at the store of Ryman Brothers, a large assortment of dry goods, gentleman's furnishings, goods, boots and shoes, clothing, etc. Terms liberal.

REAL ESTATE SALE.—A desirable piece of real estate on Little Street will be sold next Saturday at noon, at the Auction-rooms of E. P. Adams. Also, at the same time and place, the undivided half of a lot at Keonau.

NEW ADVERTISEMENTS.—We would invite special attention to the advertisements in to-day's issue, of Meares, C. Bowyer & Co. and Mr. John Tait, Waterhouse, who are able to supply any and every conceivable article on the most satisfactory terms.

THE NEXT VESSEL from San Francisco will probably be the schooner Southland. From private advices received by the steamer, we learn that negotiations were in progress for her purchase for the coasting trade, and that she is intended for the Hilo route.

THE NICOLA—This fine ship left yesterday for Central America to load coffee for London. She has unusual despatch in discharging her cargo, which with her quick passage from London and her fine sailing qualities gives promise of a most successful voyage.

ASSIGNEE'S SALE.—The auction sale of horses and cattle, by order of the Assignee of the estate of Owen J. Holt, has been postponed to Saturday next. The sale, by auction, takes place at Smith's Padock, opposite Wood's Plantation in Nuuanu Valley, at ten o'clock in the forenoon.

By arrangement in another column it will be seen that Mr. Herbert, the proprietor, intends opening the Hawaiian Hotel, for the reception of guests, about the 15th of next month. We are informed that he will endeavor, in an economical point of view, to make it an object for residents to "put up at the Hotel."

BOSTON.—On Sunday night last, the house of Mr. Herbert, near Kekaha street, was entered by burglars and two hundred dollars in coin stolen. The coin was taken from a drawer in which was also a quantity of valuable jewelry, none of which was taken by the robbers. A man, formerly a servant of Mr. Herbert's, was arrested on suspicion of being connected with the robbery. Another party, an old offender, is also under suspicion.

CONFLAGRATION PREVENTED.—The Chinese quarters on the Hailua Plantation took fire one day last week during the noon hour, while the greater part of the houses were at dinner. The flames were discovered just as they were commencing with the trash-house, which was adjoining, but through the timely exertion of several negroes engaged on the plantation, the fire was extinguished without any very serious damage resulting. The Chinese laborers are probably the most affected by the accident, as the greater part of their personal effects were destroyed. The fire is supposed to have originated through the carelessness of an opium smoker.

NEW YORK CIRCUS.—Messrs. Kingley and Thompson, with an excellent circus troupe, arrived from Stamford last Tuesday by the R. L. Foster. The company is under the management of Mr. John Wilson, who has visited Honolulu on two former occasions with a circus company. Several of the performers are Internally known from their connection with other troupes that have appeared here. The circus exhibits on the Esplanade, and opened last evening for the first time before an immense audience, all of whom were delighted with the fine performance.

ANNIVERSARY OF THE FIRE DEPARTMENT.—Saturday next, Feb. 2d, will be the anniversary of the inauguration of the Honolulu Fire Department, will be celebrated in the customary manner by our Firemen. We understand that the various companies, with their apparatus, will meet in the square near the bell-tower in the early part of the day, and from thence parade through the principal streets, after which they will enjoy themselves, with a number of invited guests, at their respective rooms. The members of Engine Co. No. 1 will give an anniversary ball in the evening at Duffin's Hall.

ON Saturday afternoon, a horse and buggy which had been fastened in front of a residence on Kekaha Street, while the owner made a call, was suddenly snatched, and no trace of it was discovered for several hours. A native who had taken it from a drunken Chinaman on Nuanu Road, drove around for some time to discover the owner, when the animal, of its own accord, turned into the premises where it belonged. It is assumed that the Chinaman took the team from where it had been left standing, as it was severely fastened, and could not have got afield without assistance.

ACCIDENTAL POISONING.—A sad case of poisoning occurred at Koau, Kona, last Thursday, the victim being a native boy. It appears that a quantity of rat poison, in the shape of small cakes, had been scattered through one of the cane-fields for the purpose of destroying the vermin which infested that locality. The boy picked up several pieces, thinking it was food, some of which had thawed away, and ate part, giving the rest to a native man who ate the rest. The latter recovered from the effects of it, but the boy died the same night.

FOR SAN FRANCISCO.—The schooner A. P. Jordan sailed on Saturday afternoon with a cargo for San Francisco valued at about \$8,500.00, nearly the whole of which is domestic produce, although reported in the commercial columns of "one of our enterprising little local journals" of last week as being "part of the Australian freight sent over by Mrs. Taylor." The Hawaian bark E. W. Wood sailed for the same port on Monday afternoon with a number of passengers and full cargo valued at about \$60,000.00, of which \$10,000.00 is domestic, the remainder being a balance of the Australian freight which arrived by the Neva.

FACONNET'S READING.—On Saturday evening Mr. Faconnet presented to his audience a novel programme. His previous illustrations were confined to Charles Dickens, exclusively, but on the evening in question he gave the Execution of Montrose, a Scene from Romeo and Juliet, Molly Meldrum, and The Ladies of the Lake. The first was rendered with great power, and a well-sustained pathetic demonstration. The dramatic ballad beautifully illustrated the story of one of the noblest soldiers that ever fought for Church and King. His energy and courage during his trial, and his noble bearing and fortitude at the time of his execution, were faithfully and truthfully illustrated. The scene from Romeo and Juliet afforded an opportunity for Mr. Faconnet to illustrate his ability in the higher work of poetic delineation, and he proved most conclusively that he was fully competent for the task. The celebrated Queen Mat's speech of Mercutio was a grand effort, the whole scene was presented with great dramatic power. The history of Molly Meldrum and Timmy O'Hare was funny, interesting and amusing, while The Ladies of the Lake were illustrated by means of very well done, showing the unhappy consequences of misdirected efforts in the fabrication of slippers, braces, and gloves, elegantly embroidered. Whether Mr. Faconnet's next reading will be on Thursday evening next, when his selection will be from Dickens' work, Don Quixote, or the like, the history of Little Paul Domby, He then goes on a tour to the other Islands, where we bespeak him a cordial welcome.

NAVAL.—The French frigate La Flotte is expected from Tahiti, in a month or six weeks. She is the flag-ship of Admiral de Lapelin, Commander-in-Chief of the Naval Division of the Pacific. Admiral de Lapelin visited Honolulu about twenty one years ago, having been Commander of the Service vessel which vessel arrived, Dec. 18th, 1850, having on board the late M. Perrin. La Flotte is a wooden frigate of the largest class, now carrying only sixteen guns, although her nominal rate is sixty guns. She draws 21½ feet of water and will therefore be able to enter our harbor with safety.

A WORK OR ART.—We have seen a miniature portrait of Madame Carandini, painted on porcelains by Mr. L. Clavier of this city. It is painted from a photograph and besides being a faithful likeness it possesses rare artistic merit. The drapery is particularly exquisite showing as artistic skill rarely to be met with in the works of artists of more pretensions than Mr. Clavier. The miniature is to be seen at Stetts & Co.'s Drug Store.
